

I am writing to request that K-LOVE radio continues to be a vital part of my life and community. K-LOVE is the only radio station that I listen to, and the only station that my daughters listen to. K-LOVE radio gives us music that encourages us to be hopeful, and to pass that along to others. K-LOVE radio helps to give us inspiration to be a blessing to our community by giving to others. I see many bumper stickers in my area for K-LOVE radio and I know many people would be lost without it, including myself. With so many choices on the radio it is so nice to have a station that I can listen to without worrying about what my children will hear. We need this station. Our community needs this station. Please don't allow for the LPFM stations to take over this great asset to our community, K-LOVE!
